

Combination Heating Systems

Dual Top Evo 6

Using the Webasto Dual Top Evo 6 means enjoyment of this revolutionary Webasto Comfort solution from just one fuel source. The Dual Top Evo 6 will heat up both your cabin and your domestic hot water. Designed to be installed either internally or externally, smart solutions are always simple.

With the standard control unit, it is easy to activate operational modes like cabin heating and hot water, as well as the Antifreeze and the Autodrain functions.

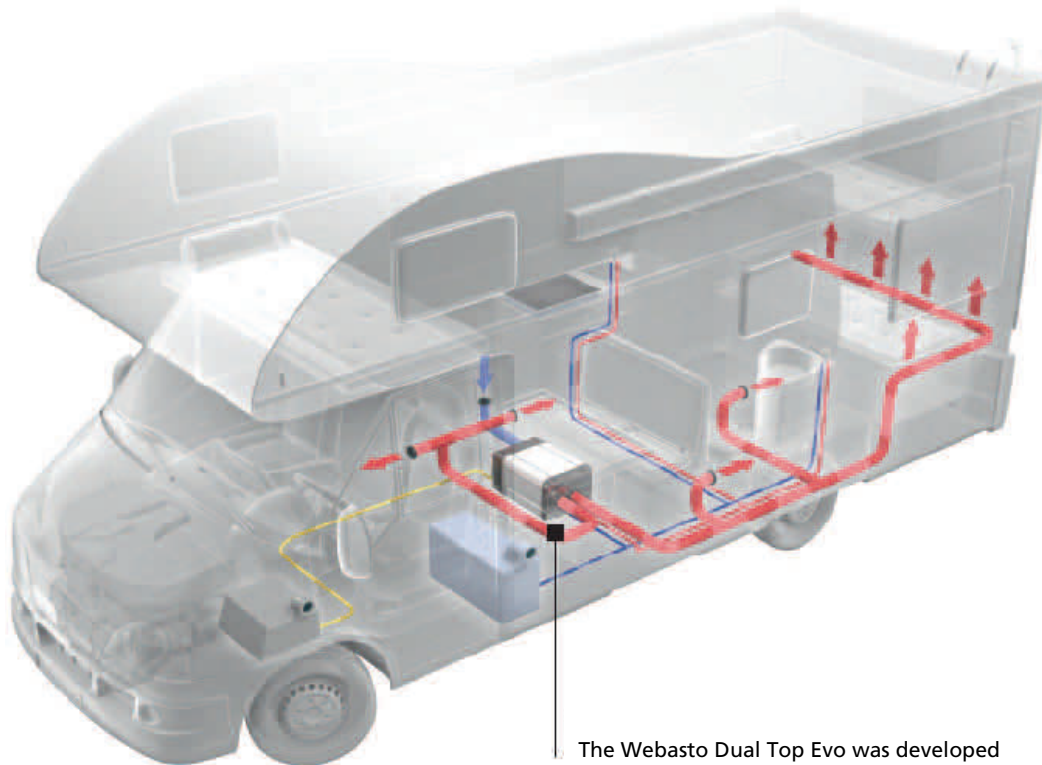

Advantages of Webasto Diesel Heaters:

- Can be used whilst driving
- Uses vehicles own diesel fuel supply
- Easy to use due to the multifunction controller
- Anti-freeze option for units protection in cold weather conditions
- Drainage option to purge water out of the unit
- Supply of warm water and hot air
- Heating power from 1.5kW to 6kW
- Smooth blower and burner operation for low noise and fuel consumption
- Precise and stepless cabin temperature control
- 11 Litre hot water boiler
- Can be installed internally or externally

The Dual Top Standard Manual Control Unit

- Two (2) knobs to choose operation mode and desired temperature
- Summer mode with either hot water at 40°C or 70°C
- Winter mode with air heating only or combined with hot water up to 70°C
- Autodrain function of boiler
- Automatic antifreeze function

The Webasto Dual Top Evo was developed specifically so that it can be installed either internally or externally.

Technical Specification

Heating power (kW)	1.5 - 6.0
Fuel	Diesel
Fuel consumption (L/h)	0.19 - 0.66
Rated voltage (V)	12
Operating voltage range (V)	9 - 15
Rated power consumption (W)	15 - 65
Boiler capacity (L)	11
Air flow max. (m ³ /h)	230
Dimensions (L x W x H mm)	530 x 352 x 256
Weight (kg)	20
